SANITARY COMMISSIONER, M.G

A.R.M.

A total of 10 attacks with 5 deaths from plague was returned during the week against 28 attacks and 22 deaths in the week previous, the Districts of Mysore, Hassan and Kadur being affected. The Cities of Bangalore, Mysore and the Kolar Gold Fields area continued to remain free from the ~~district~~ disease.

2. Fifteen attacks with six deaths from Cholera were returned for one village in Gundlupet taluk.

3. Influenza accounted for five attacks with one death on the Kolar Gold Fields area.

4. An aggregate of 15 attacks with 2 deaths from relapsing fever was returned for 2 villages in Mandya taluk and one village in Hosadruga taluk.

5. The total mortality for the Bangalore City amounted to 75 representing a calculated annual ratio of 32.89 per mille of population against the average ratio of 28.66 for 1923. Classified according to causes, the deaths numbered, 1 under small-pox, 3 under malaria, 17 under pneumonia, 3 under typhoid, 10 under phthisis, 10 under dysentery and diarrhoea and 31 under all other causes.

6. The total mortality for the Mysore City aggregated to 35 representing a calculated annual ratio of 15.35 per mille of population against the average ratio of 27.19 for 1923. The causes of deaths were malaria 3, pneumonia 7 typhoid 1, other fevers 2, ~~pthisis~~ phthisis 4, dysentery and diarrhoea 1 and all other causes 17

7. There were 46 deaths from all causes reported from the Kolar Gold Fields area equivalent to a calculated annual ratio of 20.17 per mille of population against the average ratio of 23.08 for 1923 The causes of ~~the~~ deaths were, small-pox 1, influenza 2, malaria 1, pneumonia 10, other fevers 1, phthisis 1, dysentery and diarrhoea 6 and all other causes 24.

GENL. & REV. SECTT. Br. 1 15. APR. 1925 G. D. SECTION.

GENERAL & REVENUE SECRETARIAT. 65-35 15. APR. 1925 Local Self Govt. Branch

B. MAHOMED USMON, ESQ., L.M. & S.,
Sanitary Commissioner with the Government of
His Highness the Maharaja of Mysore, BANGALORE.

To

Sany. 1-24-42

B. NAGAPPA, ESQ., Bar-at-Law,
Secretaryto the Government of Mysore,
Local and Legislative Departments, BANGALORE.

Sir,

With reference to your letter No. L. 6519/San. 1-24-31 dated the 9th March 1925, I have the honor to state that a comparative review every week of the recorded vital statistics is possible only in the case of the Bangalore and Mysore Cities and the Kolar Gold Fields. For the rest of the State the mortality returns are received at and compiled in the Taluk and District Offices, respectively during the month and the second month following that to which the returns relate (please vide rules issued with Government Order No.6664-714/ San. 71-15-3 dated the 10th March 1916.) In the case of these returns a half-yearly review has been prescribed by Government in their Order No. 4215-36/Stl. 23-21-1 dated the 14th March 1922.

2. As regards the Bangalore and Mysore Cities and the Kolar Gold Fields, each of the areas is in charge of a qualified Health Officer whose training and instincts lie in the direction of catching the earliest possible indication - as revealed by the recorded statistics - of any abnormal conditions in the state of public health and to take steps to mitigate them. Any special instructions, in these circumstances, meant for his guidance would appear to be superfluous. Nevertheless, a standing Departmental Order has been issued and a copy is submitted for the information of Government

12

I may add also that whenever the recordd statistic indicate actual or impending out-breaks of epidemics or other abnormal features in the State of Public Health, I invariably call for and obtain a special report on each such occasion, with a view to acquaint myself with what is being done and to issue further instructions, if any, that may be needed.

I have the honor to be,

Sir,

Your most obedient servant,

W Hewett

A.R.M. SANITARY COMMISSIONER, M.G.

DEPARTMENT OF PUBLIC HEALTH IN MYSORE.

No. .....

Enc .....

OFFICE OF THE SANITARY COMMISSIONER
with the Government of Mysore,

Bangalore, dated April 1925.

OFFICIAL MEMORANDUM.

The Health Officers are requested to invariably mention in their weekly diaries the salient features of the vital statistics recorded during the week, noting the calculated annual ratios of births and deaths for the week and how these ratios compare with the average for the past year and the preceding five years. If a rise in the mortality rate is observed, and if it persists during the subsequent week or weeks, a detailed report as to the ~~xx~~ probable causes underlying the increased mortality, the epidemiological investigations, if any, undertaken and the measures adopted to combat the adverse conditions should invariably be attached for the information of the President of the Municipal Council / Sanitary Board and of the Sanitary Commissioner.

Sd. B. Mahomed Usmon,

A.H.M. SANITARY COMMISSIONER, M.G.

To- The Health Officer of
Bangalore, Mysore and Kolar Gold Fields.

THRO: THE PRESIDENTS.

" C O P Y "

SANITARY COMMISSIONER, M.G.

Note on the state of Public Health in Mysore for week ending Saturday the 14th February 1925.

A total of 28 attacks with 22 deaths from plague was returned during the week against 29 attacks and 22 deaths in the week previous, the districts of Mysore. Hassan and Kadur being affected. The Cities of Bangalore, Mysore and the Kolar Gold Fields area continued to remain free from the disease.

2. Eighteen attacks with 10 deaths from cholera were returned for ~~one~~ Two villages in Gundlupet taluk.

3. No cases of influenza were returned during the week.

4. A total of 36 attacks with nil deaths from relapsing fever was returned for 4 villages in Mandya taluk and the Kolar Gold Fields area.

5. The total mortality for the Bangalore City amounted to 80 representing a calculated annual ratio of 35.08 per mille of population, against the average ratio of 28.66 for 1923. Classified according to causes, the deaths numbered 1 under malaria, 15 under pneumonia, 1 under typhoid, 2 under other fevers, 3 under small-pox, 6 under phthisis, 7 under dysentery and diarrhoea and 45 under all other causes.

6. The total mortality for the Mysore City aggregating to 37, representing a calculated annual ratio of 16.22 per mille of population against the average ratio of 27.19 for 1923. The causes of deaths were small-pox 2, malaria 1, pneumonia 4, other fevers 1, phthisis 6, dysentery and diarrhoea 3 and all other causes 20.

7. There were 40 deaths from all causes reported from the Kolar Gold Fields area, equivalent to a calculated annual ratio of 17.54 per mille of population against the average ratio of 23.08 for 1923. The causes of deaths were pneumonia 5, other fevers 2, dysentery and diarrhoea 6 and all other causes 27.
